

Viktoriia Vynohradova

Front-end developer

SUMMARY

An ambitious front-end development graduate looking to start a career in web development and use my knowledge to create interactive and responsive web applications.

My websites seamlessly adapt to various devices, ensuring a consistent user experience.

SKILLS

JavaScript React TypeScript SCSS/SASS HTML5 CSS3
Redux-Toolkit GIT OOP Flexbox GitHub Bootstrap
Material UI Redux

EDUCATION

- Food technologies at **Kharkov Trade and Economic Institute** 2010-2015

ADDITIONAL COURSES AND TRAININGS

- Front-end Basic at **Hillel IT School** 2023
<https://certificate.ithillel.ua/view/53018290> EXCELLENT 1ST PLACE
- Front-end Pro at **Hillel IT School** 2023
<https://certificate.ithillel.ua/view/74004202> EXCELLENT 1ST PLACE
- TypeScript at **Hillel IT School** 2023
<https://certificate.ithillel.ua/view/61819368> EXCELLENT

PORTFOLIO

- Business card for translator 2.2024-4.2024
I developed a business card website for a Japanese translator. I used many features and various technologies for the site.
<http://www.iryndachova.website/>
- Hlegal
A site with several pages. The Bootstrap framework is used (hamburger, carousel), icon font, optimized graphic files, flex-box, position are used to control the location of the content. There are hovers on buttons and links. Adaptable for laptops, tablets and mobile phones.
<https://github.com/vivinohradova/Hlegal>
- Use Popcorn
In this application, you can find an existing movie, see its description, rating, rate it yourself and add it to your library. UseState hooks for state control, useEffect for data retrieval, custom hooks are used here.
https://github.com/vivinohradova/use_popcorn
- Travel list
In this application you can make a list of things you need for your trip. You can delete them, mark them as done, and there is also sorting by three parameters: by input, by description and by packed. A hook useState is used to control the state.
